

You need a fine art printer who will partner with you to get the best possible results!

Master Fine Art Printers

ArtLab was established specifically for the discerning artist and photographer – those demanding the highest standards of image scanning & reproduction. Drawing on decades of experience coupled with the latest digital technology ArtLab is able to ensure complete control over print detail, colour, contrast, saturation and sharpness. At ArtLab our personal interest and involvement in each project we undertake is born from an obsession with digital graphics and a love for the printed image.

FINE ART & Photo Papers

All Fine Art and Photo printing is Archival Quality and has a **150 YEAR WARRANTY** against fading under normal indoor lighting conditions.

DID YOU KNOW?

ArtLab has the only Cruse Scanner in South Africa. This amazing scanning device puts us in a different league. And let's face it - what you put in is what you get out ... Cruse Scanners have been chosen for some of the world's finest art and archival institutions such as the J. Paul Getty Museum, NASA, the Smithsonian and national archives around the world. It scans at 1.5 billion pixels (you read right) and can scan originals up to 1.5 meters in length - (larger with tiling) and can scan objects up to 15cm in height which means we can scan your art in it's frame - even behind glass!

CANVAS STRETCHING
