FAQ's

WHAT IS THE MINIMUM QUANTITY I CAN PRINT?

The magic of digital printing means no expensive pre-press or print plates so you can print as little as 1m but please note there is a set-up charge of R275-00 below runs of 5m.

IS THE FABRIC WASH & LIGHTFAST?

Our pigment ink printing processes onto natural fabrics are wash and light fast. There are certain care instructions to be followed though. Please ask for details on each fabric type.

Our Sublimation printing is 100% wash fast.

DOES ONE COLOUR COST LESS THAN FULL COLOUR?

With Digital Textile Printing 17 million colours and any complexity of design - even full photographic quality - costs the same as one colour! So go ahead and push the envelope!

COLOUR MATCHING:

Our systems are highly calibrated but there are still colour variations to be expected with the digital textile printing process as there are many variables involved. Colour variation from monitor to the printed fabric and/or made-up product is inevitable and colours do vary from batch to batch. We recommend you do colour samples for any specific colour matching requirements.

FABRIC COATING:

The ArtLab's digital textile printing process requires that fabric is coated for optimum wash and light fastness. We stock a range of fabrics pre-coated for the process. We are able to coat fabrics supplied by the client. This is at our discretion and there is a 25m minimum.

PLEASE NOTE: On all client supplied fabrics, there will be certain wastage on supplied fabric lengths due to machine loading and feeding requirements.

SHRINKAGE:

Fabric shrinks. We compensate as accurately as we can on our own range of coated fabrics but will not be liable for any further shrinkage on finished products. Unless clients have commissioned and paid for shrinkage tests on client supplied fabrics ArtLab will not be liable for any shrinkage whatsoever.

TURNAROUND TIMES:

Standard turnaround is 7 working days from time of order, artwork and deposit. Due to the nature of the digital fabric printing process there is no warranty whatsoever that we can always meet that delivery time.

we are digital printing

- 1 digital textileprinting
- 2 custom wallpapers
- 3 fine art printing & scanning
- 4 canvas printing & stretching
- 5 flatbed printing
- 6 corporate branding
